

From the Principals Desk...

God Worshipping was the theme of our chapel last Friday. We learned that worshipping God is about celebrating who God is, what God has done and is doing, and what God has created. It is literally about standing in awe and wonder of knowledge of him and his promises. worship as a way of life.

Glorifying and praising God is a joyful duty of being an image bearer. In fact, Christ says that if we don't praise God, the rocks themselves will cry out. (Luke 19:40) And they do! Upon seeing the Grand Canyon for the first time, Hendrik Vonloon exclaimed: "I came an atheist - I leave a believer!" Praising God is not an option - or an elective or "frill." God loves every part of this world. Our God is a God who loves diversity, complexity, and creativity. When we look at the world around us, the plants, rocks, animals, sea creatures, insects, the skies and beyond, and especially people and their intelligence and capabilities... we can't help but be awestruck. (Psalm 8)

God obviously takes delight in chickadees, giraffes and northern lights, but also wants us to delight in Creation. When we learn about God's creation we stand amazed at its wonder and weirdness. Albert Einstein once said, "There are only two ways to live your life. One is as though nothing is a miracle. The other is as if everything is." God gave us this world to enjoy, to play in, to explore. We worship God when we enjoy the delicate complexity of a butterfly wing and a tiny seed pod, or the immense awe of a sharp edged mountain ridge, and a towering thundercloud. We also realize, when we see this beauty, how much God loves us. Together, in community, we join in worship of our God.

Join us this coming Friday as the Grade One and Two students lead us in our Thanksgiving Chapel.
